European Satellites Committee

(Meeting on Wednesday, 24 October 1956)

25X1A9a

Mr. [REDACTED] of St/I discussed the possibility of having FDD Satellite Language specialists assigned in "M" Building one day per week, possibly to start 1 December. The Committee suggested that it would be desirable to set aside one day each for Polish, Hungarian, and Czech.

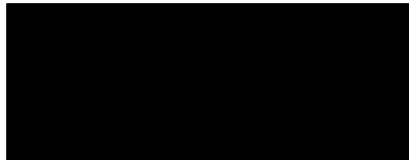

The Committee's attention was called to a report that Poland has decided to stop all hard coal exports to East Germany in favor of trading coal to the West, in return for imports of foodstuffs. It was noted that under assignment by CEMA, Poland is responsible for supplying hard coal to all other members. ([REDACTED] x 2822)
